Gender and Space
Institute of Geography in cooperation with University of Zurich amongst others
Summer School programs 2018

Spend time during summer together with colleagues from all around the world in an international and intercultural environment. Get to know leading scientists in your field of study and benefit from their knowledge to enhance your own research and methodological skills. Explore Switzerland and its capital Bern for a unique summer experience.

Are you interested? Please contact the organizing institute directly in case you have any questions. For further information about summer school courses and contact details see our website:

www.unibe.ch/summerschools
