Your main mission as a Demand and Import Planner is to develop, maintain and improve a Demand Plan for a portfolio of products and customers, which represents the most realistic estimate of customer demand.

Key responsibilities

- Establish a demand plan over 20 months for a complex product and customer portfolio through sales analysis and statistical forecasting
- Ensure the alignment of the Demand Plan through the Monthly Business Planning by interacting closely with Sales, Marketing and Finance
- Manage supply of imported and customized product to ensure availability for customers whilst maintaining optimal stock cover by interacting with producing factories/3rd party suppliers
- Monitor performance in order to continually improve the quality and reliability of the Demand Plan
- Maintain Data and Systems

Education and experience

- Bachelor of Master degree in Engineering / Mathematic / Statistic / Supply Chain / HEG degree
- First experience in Planning, Supply Chain and/or logistics is a plus
- Good knowledge of SAP/APO tools or other ERP
- Experience with SAS or equivalent is an asset
- Strong interest for Supply Chain
- Fluency in French and good understanding of German and English

To be successful, you would need to demonstrate excellent communication and interpersonal skills to interact with people at all levels in the organization. In addition, we require someone with strong analytical skills and attention to details. Your service and business improvement orientation is what will set you apart from the other candidates.
