About Deloitte

Who we are
Deloitte leads with purpose, solving complex issues for our clients and communities. Across disciplines and across borders, Deloitte Global supports our network of member firms by developing and driving global strategy, programs, and platforms, and creating new solutions and transformational experiences. Our people share a passion for igniting change and a strong service orientation that shapes our organization and those it supports.

What do we do?
Deloitte offers Global integrated professional services that include Audit and Risk Advisory, Tax, Consulting and Financial Advisory. Our approach combines intellectual leadership, industrial expertise, insight, consulting & problem solving capabilities, technology revolutions and innovation from multiple disciplines to help our clients excel anywhere in the world.

What do we value?
At Deloitte, we foster a collaborative culture where talented individuals can produce their best work. We value innovative thinking, diverse insights and a genuinely distinctive level of customer service. We value difference, with respect at the heart of our inclusive culture, and we support agile working arrangements. Hear from some of our people already working at Deloitte in agile ways. We are proud to have received a Best for All Stages of Motherhood special award in 2016 as a Top Employer for Working Families.

Our Purpose & Strategy
To make an impact that matters for our clients, our people and society - defines who we are and what we stand for. Our purpose provides the foundation for our strategy and our aspiration to be the undisputed leader in professional services: this is not about size; it is about being the first choice. The first choice for the largest and most influential clients and the first choice for the best talent.

How will this role make an impact that matters with Deloitte?
You will play a pivotal role in IT Security Services being viewed as a true business partner, delivering world-class security services protecting our firm and its individuals against any IT related threats.

You are here: Internal Client Services
Internal Client Services (ICS) contributes to the success of Deloitte through six departments: Clients & Markets, Finance & Legal, Human Resources, IT Services, Property & Corporate Services and the Shared Services Organization. There is no such thing as a 'typical' ICS person or job. The work we do is as varied as our people are diverse: administrators, artwork designers, accountants, advisors, audio-visual technicians, business analysts, building surveyors, bilingual secretaries. ICS teams are based across the UK, Switzerland and India, all sharing a common goal of providing outstanding support to Deloitte and its people.
Role description

Supporting the Chief Information Officer and head of DBS (Deloitte Business Security), with the following:

1. Driving the continuous evolution and deployment of an enterprise-wide, world-class information risk management program,
2. Identifying, evaluating and reporting on information security risks in a manner that meets compliance and regulatory requirements, and supports the risk posture of the enterprise,
3. Defining and driving policies, standards and processes to ensure that our practices meet the global, regional and local needs of the business,
4. Establishing and maintaining world-class integrated information security operations,
5. Serving as the process owner of all ongoing activities related to the availability, integrity and confidentiality of customer, business partner, employee and business information, in compliance with the organization's information security policies,
6. Proactively working with business units and member firms around the world to implement practices that meet defined policies and standards for information security,
7. Working with board and governance committees to determine acceptable levels of information security risk for the organization and ensuring that information security is managed effectively and efficiently in terms of program evaluation, reporting and cost management.
