The Division of Clinical Neurology of the Vetsuisse Faculty Bern, Switzerland invites a Veterinary Neurologist to join its team for three years. The international, dynamic, young team is formed by two ECVN Diplomates, two full-time residents, one part-time resident, one combined PhD/resident, one neurology intern and one rotating intern.

## Faculty Position as Senior Researcher

The position is open for clinicians holding an ECVN or AVIM board Certificate in Neurology, although board-eligible Candidates will also be considered. The focus of the position is on Clinical Research and should enable the Candidate to reach all qualifications for a career in academia. The Candidate is also expected to enhance the Division's reputation offering an excellent clinical Neurology service.

The Division of Neurology is a very busy service with approximately 750 referred neurological cases per year, supported by state-of-the art diagnostics and therapeutical facilities. The University provides a very stimulating research environment focused on neuroscience with strong multidisciplinary collaboration with neuropathology and neuroimaging.

The position is particularly aimed for clinicians that are enthusiastic in teaching. She/He will contribute in delivering theoretical and clinical training for undergraduate students as well as for postgraduate training programmes.

The Candidate should be fluent in at least one of the two official languages of the Faculty (German and French), nevertheless English is widely used as a working language in the division.

We ensure five weeks of holiday and competitive remuneration commensurate with experience, in line with salary and living expenses in Switzerland. Candidates interested in the position should send a letter of intent, CV, and list three references directed to Prof. Dr. Veronika Stein per email [veronika.stein@vetsuisse.unibe.ch](mailto:veronika.stein@vetsuisse.unibe.ch).

Deadline for submission is the 20th of August 2018.
