

SwissRDL is a centre of excellence for Medical Registries and Data Linkage and part of the Institute of Social and Preventive Medicine (ISPM), University of Bern. We maintain, support, monitor and analyse medical registries in a range of disciplines relevant to medical research and public health.

SwissRDL, Medical Registries and Data Linkage group is looking for a

## **Biostatistician (70-100%)**

### **Duties and responsibilities**

- Program and perform standardized reports, e.g. benchmark or annual reports
- Methodological support for medical registries and studies, e.g. sample size calculation
- Independently prepare, validate, and analyze data of medical registries
- Develop statistical analysis plans for analyses of registry data and studies
- Support other members of the team and external clients in data analysis and interpretation
- Contribute to final reports and manuscripts for publication of reports and research projects as well as research grants for new projects

### **Qualifications and skills**

- University degree in (bio) statistics (PhD, MSc, MAS) or equivalent
- Thorough experience in the analysis of medical data using statistical software
- Knowledge in methodology of clinical and epidemiological studies
- Very good knowledge of English. Proficiency in German is not mandatory but would be an asset
- Ability to work cooperatively in a small team, as well as independently, attention to record keeping, detail and quality
- Strong interpersonal and written communication skills and excellent organizational skills
- Experience in Stata, or SAS. Experience in programming statistical analyses scripts.

### **We offer**

We are offering an interesting position with diverse activities in a growing unit with the chance to contribute to the successful development of medical registries. SwissRDL is part of the Institute of Social and Preventive Medicine and is dedicated to high quality research and active career development. It provides an international academic environment and operates with interdisciplinary teams.

We are looking to have the successful candidate in place as soon as possible. The salary of the position is based on the salary scale of the canton of Bern and depends on qualification and experience.

### **Contact**

If you are looking for an exciting position in a highly motivated interdisciplinary team with flexible working hours, please send your CV with motivation letter to Larisa Cárdenas, e-mail: [hr@ispm.unibe.ch](mailto:hr@ispm.unibe.ch), until September 15th.

For further information please contact Dr. Adrian Spörri, Head of SwissRDL, Tel. 031 631 35 50, [adrian.spoerri@ispm.unibe.ch](mailto:adrian.spoerri@ispm.unibe.ch)
