Student Internship in ERP Informatics (September – 12 months)
Switzerland, Argovia, Kaiseraugst

The Position:
Our internal Basis Team is responsible for the technical aspects of improving, updating and deploying critical changes, design new solutions, automate process, engineering and craft procedures in the SAP Basis area. This role updates the SAP software configurations, integrations and upgrades, as required by the business.

As an intern within our team you have interest in the informatics field and ERP Solutions as well and educational background in informatics. This internship position will enable you to get an understanding of the Enterprise Resource Planning (ERP) systems environment within ERP Basis Team on a global environment.

We are searching for a high-energy personality, who will have the following main responsibilities:

· Learn about ERP technologies systems and get along with the Roche global Basis team
· Prepare documentation as part of the engineering process
· Be exposed to a global operational environment with contact to different Roche affiliates worldwide
· Working close to the team developing automation and engineering the process

Who you are:
You’re someone who wants to influence your own development. You’re looking for a company where you have the opportunity to pursue your interests across functions and geographies, and where a job title is not considered the final definition of who you are, but the starting point.

You are a student in your final phase of your Bachelor’s or Master’s Degree in computer science, software engineering or similar field.

What do you need in your toolbox?

· You are currently enrolled in a Bachelor’s or Master’s degree program in IT or any related field
· Experience with programming languages in corporate environments or in student projects
· Exposure of Project Management methodologies or framework is a plus.
· Good MS Excel knowledge (e.g. Excel functions, charts, etc.) and PowerPoint
· Good communication skills with both technical teams and business representatives
· Fluent English language skills. Additional languages are an asset

If you are proud of contributing and feel you have the dedication to teamwork and innovation that we are seeking, then Roche is the organization for you. Every role at Roche plays a part in making a difference to patients’ lives. If you want work in a passionate team, make your mark and improve lives, apply now.

Information about application documents and start date:
This internship should preferably start in September 2019, and will last 12 months. Please clearly indicate your preferred starting date and duration on your motivation letter. Applications need to include a CV and a motivation letter both merged in one document.

Roche embraces diversity and equal opportunity in a serious way. We are committed to building a team that represents a variety of backgrounds, perspectives, and skills. The more inclusive we are, the better our work will be.

Please note that non-EU/EFTA nationals have to provide us a certificate of mandatory internship form their university.

Who we are
Roche Kaiseraugst is a cornerstone of Roche’s global production and logistics network. It employs some 1900 people and is Roche’s largest and most innovative packaging facility worldwide.
