Start IT - Rotational Development Program

Switzerland, Aargau, Kaiseraugst
Germany, Bavaria, Penzberg
United States of America, California, Pleasanton

We are looking for post-graduates with strong interest in technology for our rotational development program Start IT. Over the course of 18 months, you will work in a global cross-functional and also cross-regional setup and you will have the opportunity to contribute to different key IT projects at Roche. In addition to on- and off-the job training you will have the opportunity to rotate to one of our IT-site in Asia, Europe or America. During the program you are a part of an active network with other current Start IT participants.

Different Locations
- Basel/Kaiseraugst, Switzerland
- Madrid, Spain
- Pleasanton, USA
- South San Francisco, USA
- Penzberg, Germany

Different Job openings
- Smart Building Initiatives
- Digital Patient Experience: Catalyzing Patient Platforms
- Data Engineer
- Data Scientist
- Data Insights Service Cluster Initiatives

Who you are
You are a highly motivated self-starter and curiosity is what drives you. You are looking for a company where you have the opportunity to pursue your interests across functions and geographies. You are a strong team player with a pronounced service orientation and proven collaboration and teamwork experience.

Your qualifications
- Bachelor, Master or PhD with a strong focus on mathematics, statistics or computer science (Graduation no longer than 2 years ago)
- Excellent communication skills and a demonstrated ability to interact at all levels of the organization with executives and senior leaders
- Fast-learner, passionate about continually adapting your skills and knowledge, agile and IT savvy
- Strong interpersonal, analytical and intercultural awareness
- Fluent in two languages, one of which must be English

Further Information
We accept applications until Aug 10th, 2021. Selected candidates will run through a number of interviews. Should these be successful, then you will be invited in September 2021 for final assessment of program eligibility. The start of the program will be in January 2022.

US Location is only valid if a US work permit is available.
