Roche Postdoctoral Fellowship in Computer-Aided Drug Design (2 years)
Switzerland, Basel-Town, Basel

At Roche, we believe it’s urgent to deliver medical solutions right now – even as we develop innovations for the future. We are passionate about transforming patients’ lives and we are fearless in both making decisions and taking action. And we believe that good business means a better world.

Pharma Finance is undergoing a transformation, but our „North Star” remains the same: Doing Now What Patients Need Next. To enable us on this journey, a new area – The Center of Financial Insights (CoFI) – has been built. The CoFI is the „one stop shop” to consolidate and provide financial information, with a high-level of expertise, innovative insights and an entrepreneurial mindset, enabling agility and flexibility for stakeholders. The CoFI will be the talent engine of Finance through capability building and flexible ways of working.

The CoFI is one of the pillars of the new Pharma Finance organization, which was developed in response to transformation efforts across Roche. The new collaborative model is designed to establish and promote an agile and effective partnering model, while enabling a mindset shift: from controlling to innovation, from value capture to value creation, from hierarchical relationships to collaborations. The CoFI now operates as a self-aligning team, and continues to look at what is needed beyond the minimal viable product to ensure we can add value as entrepreneurial thought partners to our stakeholders across the globe.

CoFI brings together a diverse team with a broad range of financial experience and expertise. Our three Finance Insight Managers (FIMs) act as the interface between the business and the CoFI. They are also coaches to the other CoFI members, helping them to transition to the new ways of working.

Your responsibilities during the internship
- Ad-hoc analysis and support for Pharma Finance
- Support during the monthly closing process, forecast and ad-hoc analysis to come up with insights
- Scaling expertise for future efforts and constantly streamlining and/or upgrading processes
- Provide decision-relevant information and drive business-case analysis with partners
- Contribute to finance projects

Who you are
You are someone who wants to influence your own development. You are looking for a company where you have the opportunity to pursue your interests across functions and geographies. Working in a multicultural environment motivates you. As a fast learner you actively drive the quality of the requirements. You are an enthusiastic team-player with preferably prior international work experience, a naturally energized person and motivated by the opportunity to learn, build value and influence tangible business outcomes.

Moreover, you are
- An ambitious student who is currently enrolled in Finance / Economics or in a gap year between degrees
- Interested in finance and bring a robust financial understanding of Income Statement, Cash Flows and Balance Sheet
- A person who works systematically and precisely and brings a high level of initiative as well as a dedicated attitude
- An advanced user of Microsoft Office standard applications (i.e. Excel, PowerPoint); preferably experienced in SAP ERP and Business Warehouse solutions
- A person with strong analytical, communication and presentation skills
- Proficient in English, both spoken and written

To be considered, please send us your complete application merged into one PDF including
- CV
- Motivation Letter (including desired starting date & duration)
- A certificate of enrollment (if you are currently studying)
- For non-EU/EFTA citizens: Certificate from the university stating that an internship is mandatory (required due to regulations)

Are you ready to apply? We are looking for someone who thinks beyond the job offered – someone who knows that this position can be a rare springboard to many other opportunities at Roche. When applying for this position, already project yourself in the future. Think about what could come next and how you would like to build your future.

Roche embraces diversity and equal opportunity in a serious way. We are dedicated to building a team that represents a range of backgrounds, perspectives, and skills. The more inclusive we are, the better our work will be.

Who we are
At Roche, 94,000 people across 100 countries are pushing back the frontiers of healthcare. Working together, we’ve become one of the world’s leading research-focused healthcare groups. Our success is built on innovation, curiosity and diversity.
