Photo requirements for the UNICARD

Requirements for the photos

Examples of correct photos

The following photos do not match the criteria!

Eyeglasses

- Eyes must not be covered by spectacle frames.
- No reflection of the lenses.
- No tinted lenses or sunglasses.
- Darkened lenses are permitted for the visually impaired.

Illumination, sharpness and contrast

- Photo must be sharp and rich in contrast.
- Even illumination (no shadows on the face).
- Natural skin tones.
- No reflections on the skin (hot spots) and no red eyes.

Headgear

- Generally not permitted. No headband or eyecatching hair band or glasses pushed onto head.
- Exceptions are only permitted for proven medical or religious reasons (people belonging to an order or a religious community that prescribes the wearing of headgear in public). In this case, the following applies: The face must be recognisable at least from the lower edge of the chin to the hairline. There must be no shadows on the face.

The technical requirements for a photo

- Resolution at least 258x323 pixel
- Max. file size 4 MB
- Allowed files jpg or png
