Global Science Film Festival

Saturday (16th November)
11 AM  short and feature film, kids apéro
2 PM  short and feature film
5 PM  short and feature film
7.15 PM  apéro
8 PM  short and feature film

Sunday (17th November)
12 PM  short and feature film
3 PM  short and feature film
6 PM  apéro and award ceremony
6.45 PM  short and feature film

The full program of the Festival is announced beginning of October 2019. Our program includes film screening (feature and short films with the presence of the filmmakers), debates (scientists and filmmakers) and opening & award ceremonies.

Further Events

Curating Film Festival: 12th September 2019
The aim of this workshop is to equip participants with theoretical and practical understanding of science events organizing using the Global Science Film Festival (www.sciencefilm.ch) as a platform.
Target group: students, University of Bern
Please register here: https://www.ksl.unibe.ch (Course 455772)

Filmmaking Marathon: 28 - 31 October 2019
In the filmmaking marathon, we seek to challenge, inspire and train researchers to use filmmaking to communicate their research. Scientists learn how to make films by working with filmmakers in four intensive days, aiming to produce short films in small groups.
Target group: researchers of the University of Bern (PhDs, Postdocs and senior researchers) are all welcome!

Storytelling Workshop: 8th November 2019
We seek to challenge, inspire and train scientists to use narrative techniques and strategies employed in film to produce persuasive presentations and publications. Borrowing communication strategies and techniques from filmmakers and applying them in science communication will help scientists for better communication of their research, and scientists are wise enough to do so!
Target group: researchers of the University of Bern (PhDs, Postdocs and senior researchers) are all welcome!

In collaboration with: mLab, Institute of Geography, University of Bern
