**iLUB**

**Overview of Services and Tools**

**ILIAS**

- **Central e-learning platform**
  - ILIAS provides fast access to reading assignments and other course materials used in conventional instruction. It can also be employed as a platform for distance learning programs conducted entirely online and collaborate with others. ILIAS courses can be generated in course announcement of Core Teaching System (CTS). In the further development of ILIAS, the needs of the University of Bern are taken into account.

  - [www.aboutilias.unibe.ch](http://www.aboutilias.unibe.ch)

**iTools**

- **Online surveys and working groups**
  - ILIAS employees and students can set up individual ILIAS applications in the iTools area that are independent of courses and use them for their own purposes such as group work or surveys.

  - [www.aboutitools.unibe.ch](http://www.aboutitools.unibe.ch)

**VHO**

- **User accounts for external persons**
  - Guest speaker and researchers outside Swiss universities get access to ILIAS with a VHO account.

**Video in Teaching**

- **Podcasts, teaching and learning videos and webinars**
  - Several of the lecture halls at the University of Bern are equipped with podcast infrastructure. We support the use of video in teaching, of course records and creating teaching/learning videos and webinars (web meetings with video).

**Interactive collaboration**

- Collaboration in virtual space from distributed locations can be realized with different tools. With webinars, online meetings, wikis and brainstorming in real time, it is possible to work on a common task independent of time and space. We help with expert knowledge to select the appropriate scenario, advise and support with digital solutions.

**Evaluation of teaching events**

- With the help of student feedback, the own teaching activities can be evaluated and further developed. All teaching staff and all courses are regularly evaluated. We organise the standard course evaluations and support the participants and stakeholders in all aspects of evaluation.

**Video production**

- **Creation & Consulting**
  - Teaching and research can benefit enormously from targeted use of video. We create professional products for you (for a fee) or provide you with our know-how and advice (free of charge).
  - [www.ilub.unibe.ch/videoproduktion](http://www.ilub.unibe.ch/videoproduktion)

**Workshops**

- **Introduce the topic of computer-supported learning.**
  - Employees of the University of Bern learn step by step about ICT-supported teaching, e-learning, video and collaboration in higher education and research. In hands-on courses, all participants work on the following contents under expert guidance.
  - [www.kurse.ilub.unibe.ch](http://www.kurse.ilub.unibe.ch)

**Consultation and support**

- We advise you methodically, didactically and technically on the use of new technologies in teaching and collaboration - from the download area for your teaching to extensive e-learning projects or working groups.
