

The August-September 2021 exam session

The exams for the August-September 2021 session may be conducted in person. However, as always, an online alternative must also be planned in case the situation worsens drastically.

In-person exams can be planned with the usual spacing (one empty seat between two students during the written exams). All other protective measures (masks, hand hygiene, ventilation of rooms, etc.) must be implemented.

Conducting the exams in online mode is also allowed.

The necessary room reservations for the exams in August and September have been made and will remain in place. Rescheduling is not possible.
