University of Bern, Switzerland

Post Doc Position in Liver Immunology, 100%

We are looking for highly motivated candidates with a background in cellular or molecular immunology to join our team. A number of novel projects are available within our group in the areas of liver immunology and the regulation of inflammatory signalling during sepsis, regeneration and radiation injury.

Requirements

Candidates should have recently obtained a Ph.D. in a relevant field (e.g. immunology, cell signaling or gene regulation). Expertise in flow cytometry, mass cytometry and bioinformatic analysis is desirable.

We offer

Salary: according to the guidelines of the Swiss National Science Foundation
http://www.snf.ch/SiteCollectionDocuments/allg_doktorierende_e.pdf

Contact

Available immediately

Deadline for submission of applications is October 31st, 2018

Application can be sent by e-mail and should include a letter of interest, detailed curriculum vitae and the names a telephone number of 2 references.
