UNIVERSITÄT
BERN

The Institute of Veterinary Bacteriology of the University of Bern offers a

Position for a Laboratory Technician responsible for Lab Management and Miscell, 100%

We are looking for a flexible, enthusiastic and highly motivated laboratory technician to support and further implement our laboratory staff of the research unit. Starting date as soon as possible.

The ideal candidate for us:

- has at least 3 years of work experience;
- experience in diagnostic work of bacteria;
- excellent organizational and administrative skills;
- can work under time constraints if needed;
- is able to work independently with regular reporting to the head of unit;
- is fluent in written and spoken English. German and French is an asset.

We offer an interesting setting for future development and long-term career perspectives. Additional specific training can be offered depending on candidates' profile and skills. We offer a diversified, developable job, our institute is situated in the center of Bern and an international team is awaiting you!

Salary and social benefits according to the guidelines of University of Bern and provisions of the canton of Bern.
