

# Study Plan for the CAS Study Program in Quality Management in Translational Medicine

**u<sup>b</sup>**

<sup>b</sup>  
**UNIVERSITÄT  
BERN**

15 March 2024

The study program in Quality Management in Translational Medicine is a continuing education program leading to the award of the Certificate of Advanced Studies in Quality Management in Translational Medicine, Universität Bern (CAS QM Unibe).

The legal basis is the Regulations of the Faculty of Medicine for Continuing Education and the “Reglement für die Weiterbildungsstudiengänge in Regulation in Translational Medicine” from 24 April 2024.

## 1. Objectives, Scope and Structure of the Study Program

Objectives CAS QM

The participants:

- a are familiar with comprehensive quality management system concepts for the development, manufacture and distribution of therapeutic products,
- b can apply the required quality, safety and efficacy standards in different life cycle phases of a therapeutic product,
- c are familiar with basic principles and practices of risk management and can apply selected principles and methods of analysis.

Scope and Structure  
CAS QM

The CAS Quality Management in Translational Medicine comprises at least 15 ECTS credits (approx. 375-450 working hours) and is made up of 3 compulsory modules totaling 15 ECTS credits.

The detailed description of the modules can be found in the appendix to the study plan. The Study Commission may extend and adapt the catalogue of modules.

Language

The course language in all modules is English. All performance assessments (module assessments, written assignments, presentations) are conducted in English.

## 2. Performance Assessments

Performance Assess-  
ment

Written and/or oral assessment per module in the form of quizzes and/or exercises and/or group works and/or presentations and/or final examinations. A final grade will be given for each of the modules.

The specific form of the module assessments can be found in the module tables in the appendix to the study plan.

Performance assessment is governed by the study regulations. Unsatisfactory performance assessments can be repeated once. The

repetition must take place no later than 3 months after the written notification of the participant.

<sup>3</sup> The Study Commission decides based on the assessment of the performance records and the fulfilment of the other performance requirements on the passing of the examination and the award of the CAS degree.

Implementing provisions      Further details are regulated in the guidelines of the program.

### **3. Final Provisions**

Entry into force      This study plan enters into force on 1 June 2024.

*Decided by the Study Commission:*

Bern, 15 March 2024   The Chairman

Prof. Dr. Rudolf Blankart

*Approved by the Faculty of Medicine:*

Bern, 24 April 2024   The Dean

Prof. Dr. Claudio Bassetti
