Other Modules: On-site dates are scheduled between Summer 2027 and Spring 2028, with two to three events per module. Exact dates will be published shortly; for updates, please contact us. The MAS program is expected to be completed by Summer 2028.

Flexible Blended Learning: Between the on-site events mentioned, participants complete weekly self-study units, including readings, written assignments, teamwork activities, and two online webinars per module. Sessions are streamed and recorded where possible to support hybrid participation. The program is designed to be completed alongside full-time employment.

Tuition fees

CHF 31'500, semester installments available

Application deadline

15 July 2026

Location

sitem-insel, Bern, Switzerland
hybrid participation possible

Admission requirements

Bachelor's degree or higher in life science, medicine, engineering science, business, law or equivalent – or work experience in the related industry. "Sur dossier" admissions possible.
