State of science

What is the current state of science in the chosen field? What findings support the project idea? If applicable, provide relevant literature.
(max. 800 characters)

Study Motivation

Your motivation

What is your reason to apply for this scholarship? What are your expectations? How can this program contribute to your project?
(max. 2000 characters)

Terms & Conditions

The [Regulations for the Programs in Translational Medicine and Biomedical Entrepreneurship of the Medical Faculty of the University of Bern](#) apply (RSL 2019).

Mandatory Participation

- Participation in the courses and e-learning activities according to the study plan and completion of the performance assessments are mandatory for all participants.
- Components of the study program that require active participation must have been completed to a total of at least 80%. "Active participation" means either mandatory attendance or mandatory activities on the e-learning platform such as completing exercises, quizzes, discussions, group work and others. Pre- and post-assignments are considered course components.
- The sitem-insel School reserves the right to conduct courses exclusively on site, online and/or hybrid.

Fees and Cancellation

- Scholarship recipients have competed against other applicants and are thus expected to successfully complete the program. In the case of withdrawal of a scholarship recipient, the course fees for the entire study program will be charged in full (i.e. CHF 31'500.-) to the recipient.
- If a replacement can be found for the deregistered person, processing costs of CHF 200.- will be charged. Whether the replacement is suitable is at the discretion of the directorate of the sitem-insel School.
- There is no entitlement to a refund or waiver of the course fees if parts of the course are not attended.
- The conclusion of a cancellation cost insurance is left to the individual participants.

Duration

- The standard period of study for the MAS program is four semesters, the maximum period of study is five years.
- Scholarship recipients are expected to complete the MAS program within the scheduled standard period of study of four semesters.
- In the case of an exceedance of the maximum period of study, the course fees for the entire program will be charged in full (i.e. CHF 31'500.-) to the scholarship recipient.

I hereby confirm that I agree with the conditions given above and in addition by the study regulation (RSL2019).
