BORIS Portal

Overview

- BORIS Portal
- Research Projects and Fundings
- Research data and data access
- FAIR data principles
- Open Science service at the University of Bern

BORIS Portal

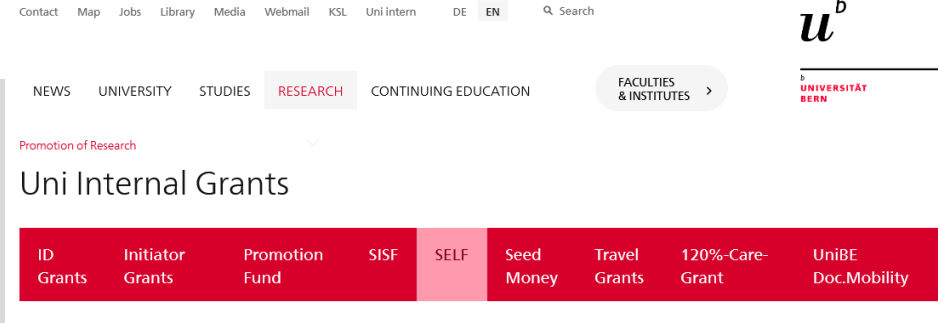

Research data, Projects & Fundings

BORIS Portal

Allows researchers to

- keep research project documentation and share with project members for internal use
- increase visibility and potential for inter-disciplinary and inter-faculty projects
- link research projects with funding information and scientific publications
- comply with FAIR and CARE data sharing including data from clinical studies

BORIS Portal

Research Data, Projects and Fundings

BORIS Portal is an institutional repository

for research data, projects and fundings

BORIS Portal meets FAIR data principles

and complies with requirements of the SNSF [Check list](#)
and the EU-Commission

Costs:

free of charge for datasets < 1 TB / per Researcher / Year
60 CHF per each additional TB / Year

Reusability and transparency:

Data sets will be publicly accessible worldwide via
the Internet

Identifier for Organisations (Crossref, Fundref)

Certification is under consideration

(e.g. [Core Trust Seal](#) - Core Trustworthy Data
Repositories requirements)

BORIS Portal

Check list to comply with FAIR data principles

- Unique and persistent identifiers (e.g. DOI) is provided
- Machine readability/interoperability
- Citation information and metadata always available even for closed and restricted data
- Metadata contain intrinsic information (e.g. author's name, content of dataset, associated publication, etc.) and submitter-defined (e.g. definition of variable names, etc.)
- Data owner can upload/choose a license (CC0, CC-BY)
- Long-term (min. 10 years) archiving

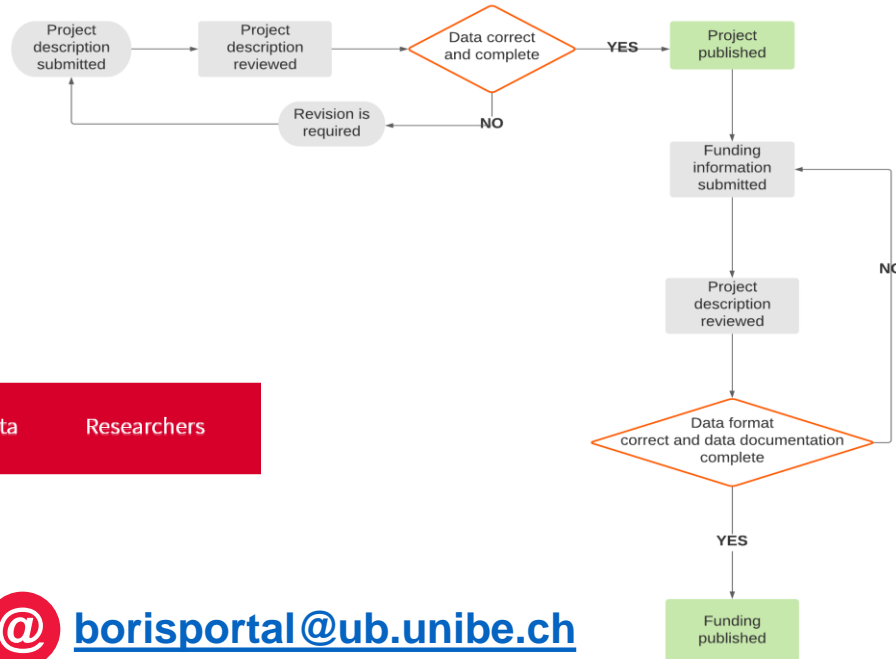

BORIS Portal

Research data access

[List](#) of supported data formats

Data upload: 2 Gb / File

Open

for completely anonymized data and all other non-personal data that can be publicly shared.

Data Transfer Agreement (DTA) is recommended

Embargoed

for data that must be withheld for a certain period of time (embargo), e.g. due to a non-disclosure-agreement. Manual set-up.

Restricted

for personal data that was anonymized but is still too sensitive to share openly, e.g. in medical research.

Closed

for data that cannot be shared openly. **Data files should not be uploaded**, but metadata should be registered to give proof of the dataset.

Clinical trials

* You are submitting in Research Data

⚠ * If you are not able to find your organization or affiliation, please contact us: borisportal@ub.unibe.ch

< Previous Cancel Save Next >

If you are affiliated at the University Hospital of Bern (Inselspital) or at the Clinical Trials Unit (CTU), you have to fill out the information below.

The primary data source

Primary data source

Type of data: Individual Patient/Person Aggregate-level: e.g. epidemiology.

Type of data

The first year of data collection

First year of data collection

- Study title
- Inclusion / exclusion criteria
- The clinicaltrials.gov identifier
Format: NCT#####
- The [BASEC identifier](#)
Format: #####-#####
- The study design of the primary data source according to the [HRA](#)

BORIS Portal

Research data access

Supplemental material

will be openly published on your item under public domain (CC0).

- ReadMe files
- Codebooks
- Methods
- Lab protocols
- Study design
- Supplement

Supplementary material can be uploaded, even if data availability is **Restricted, Closed** or **Embargoed**.

BORIS Portal License

According to the best practice, it is recommended to publish research data under the most recent Creative Commons Attribution International Public License ([CC BY](#)) or [Creative Commons Public Domain Dedication \(CC0 license\)](#).

CC0, CC-BY for anonymised data only!

CC0 can not be applied if

- there are ethical, legal or contractual agreements;
- data will be commercially exploited (patents) or
- there are some forms of processed data, e.g. elaborate visualisations
